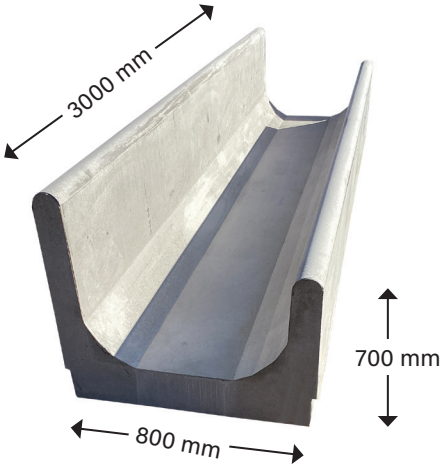
ClearWater Tanks

8ft Cattle Feed Trough



NEW Design ... Tapered internal sides for better utilisation of feed.

A cattle feed trough purpose built for feedlots that are designed to reduce feed waste.

Our feed troughs can be joined together and moved easily using our integrated fork guides.

The benefits ...

- Suitable for feedlot or supplementary feeding of cattle in the paddock
- A cost effective and efficient feeding solution to reduce waste
- Our cattle feed troughs are designed to be bolted together to suit your feed requirements
- Integrated fork guides make moving our feed troughs easy using a front end loader
- Free standing design with open ends for easy cleaning

Our feed troughs include ...

- 40MPA reinforced vibrated concrete
- 10 year warranty on workmanship
