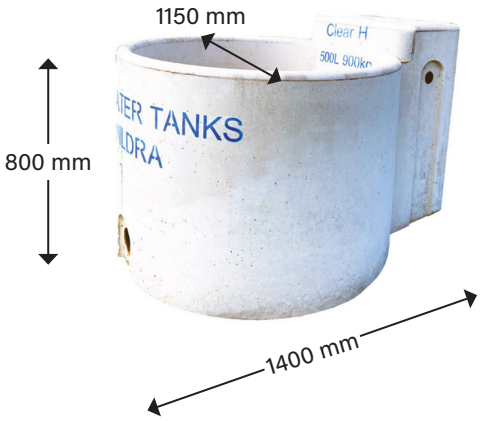
ClearWater Tanks

Round Horse Water Trough



A horse water trough purpose built for easy installation and management.

ClearWater troughs are designed to be "stock-proof".

The benefits ...

- The tap can be protected within the float valve chamber to prevent stock turning it off
- The fully enclosed float valve chamber protects the float
- Troughs are a deep design to keep water cooler longer on hot days
- ClearWater troughs are easy to install and maintain

Our troughs include ...

- Enclosed float valve chamber
- Easy access to float valve
- 40MPA reinforced vibrated concrete
- 10 year warranty on workmanship
- Suits high or low pressure float valve (not included; supplied separately)
